Computer Fundamentals	n/a	n/a		The computer must use the Windows XP, Windows 2000, or Windows NT 4 operating system. It is recommended that the student use the 2002 version of these Microsoft Office Products (also known as the XP editions). However, this course will still work with earlier versions and even with Office 2003. Wherever possible, there are alternative instructions and hints for students not running the 2002 versions. For Semester II, students also need Microsoft Internet Explore version 6.0 and Hotmail which is a free webmail service.
